About Me

A Frontend Developer with a passion for creating intuitive, responsive user interfaces that deliver exceptional user experiences. Proficient in modern web technologies including HTML, CSS, JavaScript, and frameworks like React, with a strong eye for design and attention to detail. I thrive on transforming complex requirements into clean, maintainable code and enjoy collaborating with cross-functional teams to bring digital products to life. Committed to staying current with emerging technologies and best practices in frontend development.

Hard Skills

- HTML
- CSS
- JavaScript
- GIT
- Tailwind Css
- Copywriting & Story writing

Soft Skills

- problem solving
- Critical Thinking
- Communication
- Time Management

Languages

English

French

Experience

Frontend Developer Intern 2025

Delon Company

- Build card components, infinite scroll effects, and interactive elements
- Design a multi-section portfolio with hero section, projects gallery, skills showcase, and contact form
- Shows understanding of conversion-focused design and modern UI trends

Goodfood Dashboard 2026

personal project

- Created a comprehensive dashboard displaying order statistics, recent orders, and delivery status with real-time updates and filtering options
- Designed a card-based dashboard using Tailwind's grid system, featuring statistics cards for total orders, revenue, active customers, and pending deliveries
- Built advanced filtering options to sort orders by date, status, meal type, or customer, with a search bar for quick order lookup

Currency converter 2025

Personal Project

- Built a mobile-first interface that adapts seamlessly across devices, featuring dropdown menus for currency selection and clean input fields
- Integrated with a live currency API (e.g., ExchangeRate-API or Fixer.io) to fetch up-to-date conversion rates for 150+ global currencies
- Implemented swap functionality allowing users to instantly reverse the conversion direction between any two currencies with a single click
